Présentation

Spécificités

The objective of the Economics track is to provide students with a solid grounding in the fields concerned, through a range of different courses (economics and law, decision mathematics, econometrics and statistics).

This training, with its ambitious courses, enables them to access the various Master 2 tracks offered by the Toulouse School of Economics - TSE, in the best possible conditions.

Etablissements cohabilités

Objectifs

A double-degree policy in economics with Pompeu Fabra University has been developed, and a specific double-degree agreement in economics was signed on May 7, 2015 and renewed on September 21, 2021.

This agreement covers the "Grado en Economía" degree from Pompeu Fabra University and TSE 3rd-year Bachelor's degree in Economics, and validation of the 1st year of TSE Master 1's degree in Economics.

Students receive a high quality level of studies in various disciplines of economics.

Common courses provide strong foundations in the basics of economics, while options help students develop their economic culture and prepare them for quantitative analysis. All courses are taught in English.

Admission
